

# Five Design Sheet

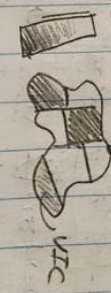

- Data might be a bit too disintegrated  
 - Need to highlight this if decide to compare with the world  
 Topic: Skin Cancer

# Important

distribution of skin cancer

# Focus

- Heat map focus on the distribution of cancer cases, throughout the year (maybe with filters for gender, type, death?)

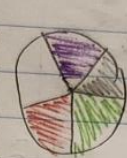

- line graph: trend + comparison between this's states / world vs this thing

- Mortality is confirmed cases between states  
 - Mortality between cancer stages

- time, by gender / mortality / age  
 - Radar + pie chart shows distribution of factors + mortality of cancer stages

- Bubble graph: comparison between states / this is the world with timeline + filters for gender
